Lash & Nail Aftercare Guide

A few simple habits keep your set looking fresh for longer. Keep this guide on your phone, and message us on WhatsApp any time you have a question.

Lashes

- Keep them dry and away from steam on the first day.
- Brush them gently each morning with a clean lash brush.
- Use an oil-free makeup remover around your eyes.
- Don't pull or pick at them. Book a removal instead.
- Book your refill within 2 weeks to keep them full.

Nails

- Wear gloves for washing up and cleaning.
- Don't use your nails as tools to open tins or scratch off labels.
- Rub a little cuticle oil in each day.
- If a nail chips or breaks, don't pick at it. Book a repair.

When to come back
